"Multiple Program Accreditations: Mastering the Juggling Act," written by CHAMPS Oncology’s Toni Hare, is the March/April 2012 Oncology Issues cover story.

The article was chosen as the Oncology Issues cover story for the important re-launch of the publication because of its relevant and timely advice for cancer programs. In it, Hare discusses six ways to best juggle multiple accreditations and then puts those best practices to the test by featuring a case study on CHAMPS' client Ohio Health's Riverside Methodist Hospital. The article also included quotes and tips from other CHAMPS clients.

To read Hare's Oncology Issues Cover Story, "Multiple Program Accreditations: Mastering the Juggling Act," in full, visit www.accc-cancer.org.
