

[MSys Technologies Awarded with Esteemed ISO/IEC 27001:2013 Certification](#)

MSys Technologies has been awarded the ISO/IEC 27001:2013 certification for Information Security Management System (ISMS) for its Chennai office.

Online PR News "15-November-2017" November 15, 2017, Alpharetta, GA: MSys Technologies, a global technology services company focusing on datacenter technologies such as Storage, Virtualization, Cloud computing, UX engineering and Predictive Analytics, has been awarded the ISO/IEC 27001:2013 certification for Information Security Management System (ISMS) for its Chennai office.

Â

The ISO/IEC 27001:2013 is a globally recognized information security standard for ISMS, which is a framework of policies and procedures that includes all legal, physical and technical controls involved in an organizations information risk management processes. KPMG helped MSys with planning and implementation of ISMS while the certification audit was done by Bureau Veritas Certification Holding SAS UK Branch.

Â

MSys CEO, Sanjay Sehgal states: Securing the ISO/IEC 27001:2013 certification demonstrates our ceaseless allegiance to the best security practices and risk management by our team. By benchmarking our policies and procedures against this internationally recognized Information Security Management System standard, our customers and partners can be assured of MSys excellent services.

Â
