Online PR News " 15-February-2011 " First Choice Plumbing has been serving The Bronx Residential and Commercial customers for the last 25 years. We also serve the other Boroughs - The Bronx, Brooklyn, Queens & Staten Island. Our Master plumbers are Licensed and Insured. Our customer focus, value & quality differentiates us from the competition. Our licensed plumbers are trained, have the most latest plumbing equipment and always do a flawless job.

Â

Sewer & Water Main Repair

Cold weather and freezing temperatures create a stress on water and sewer infrastructure. It increases the chance of leaks and needed repairs. The first thing you should do is call master plumbers. Once we are notified, an experienced plumber or crew is dispatched to investigate and assess the problem. A crew will set up a work zone and detour traffic after a water main break is confirmed. Our crew work continuously to repair breaks and restore water service.

Â

Sewer & Water Main Line Video Inspection Service

Sewer blocks is one of the most common problems that New York home owner come with. Clogs in the drain pipes may require the digging up of the lawn or breaking down your concrete slab. This is a expensive and can cost a lot of money. The introduction of sewer line video inspection process has however, solved this problems. We use the latest sewer line inspection camera to locate any clogs in your sewer.

Â

Sewer Line Video Inspections Helps to Find :

- # Broken or cracked Damaged pipes due to settling, frozen ground etc.
- # Blockage Foreign object is prohibiting proper flow of the line
- # Corrosion Pipe has broken, causing collapses in the line and restricting flow
- # Leaking joints Allowing water to escape into the area surrounding the pipe
- # Root infiltration Tree roots have invaded the main line, restricting normal flow or have damaged the line
- # Off-grade pipe Existing pipes are constructed of substandard material that may have corroded
