Joe Dager says of the Marketing with Lean program, "This requires re-thinking about the way you do business and the way you think about your markets. More importantly, the way you think about value. Value in terms of how your market defines it. Stop thinking about product or even product benefits. Your marketing systems must support the delivery of value to your customer at a much higher rate than your competitors. It is a moving target and the principles of Lean and PDCA facilitate the journey to customer value. Learn what the terms Agility, Speed and Relevance fit into the marketplace today and in the future."
