

## [IT Brand Pulse Presents 2018 Innovation Leader Awards at Flash Memory Summit](#)

*Innovation Leaders Voted by IT Professionals for Flash Storage Related Products*

Online PR News "08-August-2018" IT Brand Pulse, a trusted source for research, data and analysis about data center infrastructure, will honor 2018 Innovation Leaders-as voted by IT pros in Flash Storage related product categories-at Flash Memory Summit on Wednesday, August 8 at 2:00 p.m., Mission City Ballroom, Santa Clara Convention Center.

Â

IT professionals from around the world responded to the independent, non-sponsored annual survey in June 2018, asking which vendors they perceive to be the Innovation Leader in sixteen product categories.

Â

"The IT Brand Pulse leader awards reflect the judgment of major customers and key IT personnel at important data centers. They are the only awards based on the experience of those who actually buy and use the products," said Dr. Lance Leventhal, Flash Memory Summit. "Regular surveys assure that the responses are recent and up-to-date. Receiving an IT Brand Pulse award shows that a company is doing the job where it really counts - in the field!"

Â

"In 2018, the market for NVMe flash storage expanded from internal to external storage," said Frank Berry, CEO and Sr. Analyst, IT Brand Pulse. "At this inflection point, Intel established incumbent brand leadership for the new class of ultra-low latency flash SSD, while IT pros selected Pure Storage for All Flash NVMe-oF Storage."

Â

**The IT Brand Pulse leader awards reflect the judgment of major customers and key IT personnel at important data centers. They are the only awards based on the experience of those who actually buy and use the products**

2018 Survey Highlights: Innovation Leaders

- \* Intel - NVDIMM, PCIe NVMe Card SSD, Ultra-Low Latency SSD and a Special Achievement award: Contributions to Innovation: Ultra-Low Latency Storage for Edge Computing over the past five years.
- \* Dell EMC - All Flash iSCSI Array, All Flash Unified SAN/NAS Array and Hybrid HDD/SSD Array
- \* Pure Storage - All Flash Fibre Channel Array and All Flash NVMe-oF Storage
- \* Samsung Electronics - SSDs and NAND Flash Chips
- \* Mellanox - NVMe-oF Network Adapters
- \* NetApp - All Flash NAS Array
- \* Nutanix - All Flash Hyperconverged Infrastructure (HCI)
- \* ScaleFlux - Computational Storage
- \* VMware - Flash Cache Software

## IT Brand Leader Surveys

Â

IT Brand Pulse awards are the symbols for brand leadership; covering hundreds of IT categories each year - from servers, storage and networking to cloud, software and other broad IT market segments. Measuring the perceptions of global IT professionals from large enterprise, medium enterprise and HPC environments, winners are voted in surveys that are independent, non-sponsored research. The surveys are designed to capture the pulse of brand leadership in different product categories. In these surveys, respondents are asked to vote for the overall Market, Innovation, Performance, Reliability, Service & Support, and Price leaders from a randomized field of provided vendors (or write in choice under "Other").

Â

Global IT Pro respondents to recent surveys include:

20th Century Fox - Advocate Health Care - Allergan - Allstate - American Airlines - ARRIS - AT&T - Bank of America - Berkshire Hathaway - BC Hydro - Blue Cross - Boeing - Boral - BorgWarner - Bosch - Boston Scientific - Boston University - British Columbia Lottery - Brown Bros Harriman & Co - CA Dept.
