PB Supercars now has the largest fleet of supercars for hire in the UK

Online PR News â€œ 03-January-2019â€œ PB Supercars now officially has the largest fleet of self owned supercars for hire in the UK. With the addition of the white Aston Martin DB11 Coupe the fleet now sits at 25 cars. Andrew Calf who is the general manager at the Canary Wharf office says, â€œthat with the addition of this car we now have five Aston Martins on the fleet and are able to cater for all budgets.â€• Their lowest price Aston Martin is the Vantage Coupe starting from Â£200 a day based on 7 day rental. Although the DB11 is a little more expensive at Â£375 a day.

Â

â€œSince the start of our business in 2006 the Aston Martin brand has always been in high demand and has remained at firm favourite in the garage. The all new DB11 follows on from the classic DB9 and we expect this new car to be even more popular. With its six litre engine it can power you to 60 mph in just 4.2 seconds, however the DB11 is not about raw power, itâ€™s about style and sophistication.â€•

Â

Continuing a great few years PB Supercars is now looking to open two further offices and increase the fleet to circa 40 cars. Their current brands include Aston Martin, Audi R8 hire, Bentley, Ferrari, Lamborghini, Maserati, Mercedes, McLaren, Jaguar, Porsche and Rolls Royce.

Â

Thanks to its London location and superior customer service PB Supercars has established itself as the leading UK supercar hire specialist and currently has a customer base of around 7000 clients who take advantage of the great deals they offer.

Â

PB Supercars also offers short term leasing across its fleet, which is an ideal way to change your car every few months. If you looking for a great deal for Bentley hire, or perhaps one of their hair raising Lamborghini hire deals more information about the services can be found at <http://www.pbsupercars.com>.
