

[Polyflor has 25 BRE A+ product ranges](#)

With 25 product ranges now featuring the highest possible BRE A+ Global certification, more than any other resilient flooring brand, Polyflor offers a portfolio of products that deliver real sustainability together with unrivalled performance and visual impact.

Online PR News â€“ 28-April-2011 â€“ Polyflor has 25 BRE A+ product ranges

Â

With 25 product ranges now featuring the highest possible BRE A+ Global certification, more than any other resilient flooring brand, Polyflor offers a portfolio of products that deliver real sustainability together with unrivalled performance and visual impact.

Â

Pearlazzo PUR, Polyflors distinctive new homogeneous range, is the latest product to join the manufacturers A+ portfolio of products following an individual assessment from BRE Global.

Â

First-class environmental credentials are no longer seen as an added bonus in the flooring industry, they are very much a deciding factor when it comes to which products get specified, explains Sonia Baker, Polyflors environment market manager.

Â

We can confidently offer our customers products that meet, and often exceed, the environmental requirements of todays construction industry without compromising on the quality and performance that is synonymous with the Polyflor Brand.

Â

Achieving BRE A+ certification for major use areas (ENP 336, 415 and 429) based on a life cycle analysis approach over a building life of 60 years, Polyflors 25 A+ ranges include homogenous, safety, luxury vinyl tile and heterogeneous flooring products.

Â
