

[MEZZI's New iPad Cases About To Land On The Shelves](#)

Highly anticipated leather-style iPad cases sure to be one of MEZZI's hottest sellers this summer.

Online PR News â€“ 28-June-2011 â€“ MEZZI, world renowned aluminum case manufacturer, is preparing for one of its hottest new products to hit its online shelves just in time for summer. Their new uniquely-designed iPad cases are expected to arrive soon from the manufacturer and then be ordered by the many MEZZI fans who own iPads. The iPad cases will be available in three stylish colors: black, white and pink.

Â

"We've had a great deal of interest in providing our customers a protective and stylish case for the iPad," explains MEZZI President, David Mezzi. "With the upcoming debut of these high-quality iPad cases, we are expecting them to be one of our fastest-selling items this summer. These cases come at a great price-point and offer unparalleled protection for the Apple iPad tablet."

Â

MEZZI's forthcoming iPad cases are hand-stitched and made from a durable leather-replicate. The iPad cases will fit both the original iPad and Apple's new iPad 2. Each case sells for \$49.95, making it as affordable as it is durable. A secure tab closure keeps the case shut when the iPad is not needed, and protects the iPad from all sides, which isn't possible with a simple screen protector.

Â

"For those who are really eager to land one of our new iPad cases," says David Mezzi, "we have begun taking backorders for all three colors on our website. We plan to fulfill orders based on a first-placed-first-served basis."

Â

As with all MEZZI's products, the iPad case comes with an extendable 6-month warranty. The warranty covers all manufacturer defects and damages, and for any unlikely personal dissatisfaction of the product, MEZZI will accept return of the product in its original condition, less a possible restocking fee.

Â

MEZZI has long been an industry leader in quality aluminum cases. Many of their products have been prominently featured on the big screen, on television shows and in widely popular music videos. MEZZI SLIM mold aluminum briefcases appear regularly on NBC's "Deal or No Deal," hosted by Howie Mandel, and the Gold and White M-Zero laptop cases appear on "Chuck." On the silver screen, MEZZI aluminum cases have appeared in 13, starring Jason Statham, and Mission Impossible III, starring Tom Cruise.

Â

About MEZZI

Â

MEZZI has been manufacturing and retailing fashionable, affordable aluminum cases for more than 15 years. In that time, MEZZI has grown its business from only a handful of briefcases to a full line of cases suitable for a variety of uses, including metal gun cases, art portfolio cases, travel cases and business card cases. The company's cases are frequently sought by celebrities and producers for movies, television shows, music videos and high-end gifts.
