

[Announcement for Website Seminar for NSF to PST Conversion Software](#)

There will be Web Seminar for SysTools Export Notes software known for NSF to PST conversion in the coming next two days, where topics for discussion will be methodologies to make software a better tool.

Online PR News "01-July-2011" Gothenburg, Sweden The announcement for organizing Website seminar for the crucial software SysTools Export Notes software has been made yesterday only by director of Website team of SysTools Group. In this conference, tactics and strategies will be discussed to make this NSF to PST Conversion (<http://www.ordertool.nsftopst.com/>) software helpful will be discussed in the presence of whole Website team headed by the director of the team itself.

Â

Stated, Susan Kaet, Director for Web Team, SysTools Group, Many organizations found glitches with Lotus Notes email set up decided to turn up towards Outlook email set up and thus show their interest for email migrations tools. This NSF to PST Microsoft (<http://www.nsftopst.org/convert-nsf-to-pst-microsoft>) software is thus created, in order to pay relief from heavy and unnecessary expenses many existing organizations facing. They even turn to the condition of deterioration; SysTools has decided to organize a Website seminar to improve the skills of the software.
