Dennis Gardin, international speaker and executive director of the Georgia Firefighters Burn Foundation

Dennis Gardin, international speaker and executive director of the Georgia Firefighters Burn Foundation, is highlighted in the new #1 bestselling book, The Psychology of Wealth, by Dr. Charles Richards.

Online PR News â€“ 31-January-2012 â€“ Dennis Gardin, international speaker and executive director of the Georgia Firefighters Burn Foundation, is highlighted in the new #1 bestselling book, The Psychology of Wealth, by Dr. Charles Richards. As one of the stories featured in a book that has flown to the top of the bestseller lists this week, Dennis is keeping good company with such notables as Donald Trump, SUCCESS magazine owner Stuart Johnson, Tennessee Representative Johnny Shaw, and many others.

Â

How do all of these seemingly disconnected people come together in this book? Dr. Richards shows how each displays a thriving psychology of wealth whether it be financial, personal, or in Dennis case, having a life of purpose and being able to fulfill that purpose being able to make a difference in someone else's life.

Â

Today, Dennis and the foundation help burn survivors in their recovery and provide fire safety education to prevent others from experiencing the traumatic event of a burn injury.

Â

When Dennis was 14 years old, over 70% of his body was burned while he was working on his motorcycle, against his parents wishes. Because his doctors were certain that Dennis wouldnt live, they didnt even try to move him to a childrens hospital from the adult burn ward. In Dennis words, It didn't matter where I died. Against all odds, and after 50 surgeries, he did survive, and the world is better for it today.

Â

As a teenage burn survivor, Dennis saw himself as a monster and hid in his parents home for two years. At the time, there was little or no support to help with this type of trauma for either Dennis or his family. Indeed, if you had told the teenage Dennis that today he would be the director of a major burn foundation, running burn camps for kids and traveling the world to talk about his experiences, he would have never believed you. He wants to be sure that no one has to experience what he and his family went through without solid support.

Â

The Psychology of Wealth is for anyone interested in succeeding personally or professionally, and in achieving true prosperity. It offers golden steps on the path to a better life.

Â

I wrote The Psychology of Wealth to discover what it takes to create true abundance. The people whose stories Ive included have a great deal to tell us about how we can prosper and achieve wealth in the fullest sense of the word. Their answers provide a roadmap for success and tremendous optimism about our prospects.

Dr. Charles Richards
