

[HealthWay Installs Medical Grade Air Cleaners In Florida Emergency 911 Call Centers](#)

Over the past 12 months, many Florida based 911 call centers have been working with HealthWay Home Product's public safety division by equipping the call centers with state of the art medical grade air cleaners.

Online PR News â€“ 26-March-2012 â€“ The 911 emergency response system is a complex and critical government service. It is complex because successful response to every emergency 911 call requires coordinated activation of multiple human and technological elements. The response system is critical because protection of human safety and property is a fundamental expectation of government. States and municipalities commit significant resource to fulfilling this mandate.

Â

Over the past 12 months, many Florida based 911 call centers have been working with HealthWay Home Product's public safety division by equipping the call centers with state of the art medical grade air cleaners. Jeff Hoy handles the service and install for HealthWay's public safety division. It is crucially important that the Government keeps these call centers as clean and healthy as possible. Limiting sick days and retaining the highest quality 911 operators is the purpose of this initiative. Vinny Lobdell, Executive Vice President at Healthway, stated It's a breath of fresh air to see a commitment to excellence at the governmental level. At HealthWay our commitment lies in providing solutions for the most mission critical indoor environments.

Â

HealthWay commercial air cleaners not only provide the highest efficiency at capturing dangerous ultra fine particles with ultra low pressure drop, but also eliminate air-borne virus, bacteria, and mold spores. The specially designed commercial air cleaners installed at several call centers over the past year have helped create up to a 95 percent cleaner environment at each of the emergency call centers.
