

[Poole Windsurfing School 2012 Opening Day](#)

The 1st May will be the official opening day of the 2012 windsurfing season at the Poole Windsurfing school. For the coming season Poole Windsurfing will have brand new 2012 windsurfing equipment from Goya, RRD, Amex & Billabong.

Online PR News "06-April-2012" Those booking early for windsurfing lessons & windsurf hire will be the first to take out all the new kit!

Â

During the coming season all types of windsurfing courses will be running, from beginner and intermediate windsurfing lessons through to advanced courses and private windsurf tuition. Also, Poole Windsurfing offers a great windsurf hire scheme where you can pay by the hour or take advantage of a discounted 10 hour hire card that you use during the course of the summer season.

Â

For 2012 there will be an expanded range of sizes on offer in the beginners windsurf board fleet, from brands Goya & RRD. The advanced windsurfing sail range is also being increased to cover more sizes. Our top of the range Guru & the new Nexus windsurfing sails will give intermediate to advanced windsurfers an even greater choice of sail size & type.

Â

RDM (Reduced Diameter Masts) will once again be used exclusively throughout our windsurf school. We pride ourselves on using the best windsurfing equipment available & these RDMs are normally only reserved for the instructors at most windsurfing schools! At Poole Windsurfing we use RDMs for everything from advanced sails right through to using them on our beginners windsurfing lessons!

They may be more expensive but we really feel the benefit to the students is worth it! - Terril Winters, Senior Windsurfing Instructor - Poole Windsurfing

Â

Check out our Windsurfing Equipment Page to see more from the Poole Windsurfing School setup. This page showcases our windsurfing equipment and will be updated with pictures of all the 2012 windsurfing kit just as soon as it has been unwrapped ready for the coming seasons windsurfing students.

Â

Poole Windsurfing is a dedicated windsurfing school which is the product of over 15 years teaching experience, being drawn from managing two other local windsurf centres and teaching at different locations around the world. Much of their business is through word of mouth about the quality of instruction & is what keeps people going back for more throughout their windsurfing career.
