

[Naturopathic Family Care Clinic Offers More Than Patient Care By Health Hosting Events](#)

Longevity Medical Clinic offers more than integrative health care. They are hosting frequent educational and preventative health care events. Events include discussions, lectures, and other health presentations.

Online PR News â€œ22-May-2012 â€œ Longevity Medical presents educational health events that include lectures, discussions, open houses, and other health presentations.

Â

By providing these events, they are improving health and preventing disease. The frequent free lectures present a variety of topics, from detoxification to cancer prevention. Also occasionally they host lab testing or detox demonstrations.

Â

The next event being hosted by Longevity Medical is a discussion of why we can be so Hot, Cold, Up, Down, Round AND How to Fix It! The discussion is inspired by amazing results that women are having with natural medicine, Dr. Purcell has put together this talk to bring you the latest information on hormone balance today. The event will help answer womens health questions. Dr. Purcell will direct the discussion on June 13, 2012.

Â

Dr. Purcell is licensed as a natural medical doctor in both Arizona and California, who specializes in natural integrative medicine. She has a specialty practice for hormone balancing, weight loss, and gastro-intestinal concerns. Dr. Purcell assists her patients by identifying the underlying cause of disease and removing obstacles that impede the body's natural ability to heal. Drugs and surgery are always used as a last resort. She believes that increasing health on the inside shines through to the outside.

Â

Longevity Medical Health Center has been recognized as the leading natural health care center in Arizona since 1984. They are dedicated to improving the lives of patients by providing high quality individualized health care. The staff of nationally recognized physicians and educators understand that in order for true healing to occur patients must be participants in their own health care. Through education, listening, and the understanding skilled physicians empower patients to play an active role in their own health care and wellbeing. The goal of having the events is to provide excellent alternative health education in a comfortable and relaxed environment. For more information on Longevity Medical Health Clinic and details on their next discussion, lecture, or event visit www.longevitymedical.com
