

## [Corent Wins TechAmerica High-Tech Innovation Award for Best Cloud Computing Product of the Year](#)

*Prestigious Southern California Awards Program Recognizes Outstanding Achievement in Technology*

Online PR News â€“ 18-June-2012 â€“ Corent Technology, Inc., a disruptive innovator in the Cloud Computing space, was honored as the most innovative cloud technology provider at the 19th Annual TechAmerica Orange County High-Tech Innovation Awards.

Â

"Our 'Plug & Play' suite of software products continues to be recognized by our industry peers as a game changer in the Cloud and SaaS space. We are honored to receive this award and look forward to continuing to deliver high value to SaaS and software vendors as well as to global enterprises, which can now gain a decisive competitive edge by delivering their SaaS solutions - on any public, private, or hybrid Cloud - at a significantly lower cost of service," said Feyzi Fatehi, CEO of Corent Technology.

Â

### **Intel Inside**

Now in its 19th year, this premier business event celebrates excellence and achievement in the technology sector, and honors Orange County-based companies, individuals and products that drive technology innovation.

Â

Corent was also recently announced as a finalist in the Cloud Computing/Software as a Service (SaaS) category for the national 2012 annual American Technology Awards ceremony in Washington, DC.

Â

About Corent Technology

Â

Corent Technology, Inc. ([www.corenttechnology.com](http://www.corenttechnology.com)) - a leader in Cloud/SaaS enabling technologies - is emerging as the "Intel Inside" for the SaaS industry. Corent provides a unique and innovative software "plug-in" approach for the instant transformation of conventional, single-tenant software applications into robust multi-tenant, cloud-ready SaaS (Software-as-a-Service) solutions without the need to re-write the applications. The privately-held company is managed by a team of seasoned Silicon Valley veterans from technology leaders such as Apple, HP, IBM, Oracle, Sun and Sybase.
