

[McEwen Law Firm Has Reached Thirty \\$1 Million plus Lawsuits Mark](#)

The McEwen Law Firm, which specializes in personal injury lawsuits, has won thirty \$1 million plus lawsuits. Our truck accident lawyer from this firm is a member of the Million Dollar advocates forum.

Online PR News â€“ 17-February-2009â€“ Inver Grove Heights, MN - The McEwen Law Firm, which has received the 'Top Lawyer' award for 2004 and 2006 from Mpls St. Paul Magazine, has won over thirty \$1 million plus personal injury lawsuits for their clients. One of the areas they specialize under personal injury claims is Truck accidents. Our truck accident lawyer from the McEwen Law Firm is a member of Million Dollar advocates forum. This is an exclusive forum which is reserved for lawyers with great experience in dealing with lawsuits whose settlement values are over \$1 million. Their membership at the Million Dollar advocates is a clear indication of the Firms level of expertise in dealing with truck accident settlement cases.

Â

The McEwen Law Firm represents victims of accidents from both trucks and semi trucks. They deal with everything from big rigs, cars, autos, 18-wheelers and commercial vehicles.

Â

Many people hesitate to hire a truck accident attorney because they think that they cannot afford a truck accident lawyer or a semi truck accident lawyer. When someone wants to hire a truck accident lawyer from the McEwen Law Firm, they will be paying the McEwen Law Firm only after they win the case and get the settlement. Rather, the clients are expected to pay the firm only if the case is won. This creates a 100% risk free situation for the clients who would like to hire the expertise of the McEwen Law Firm. Even the initial consultation, which will determine whether a client has a case or not, is offered free.

Â

McEwen Law Firm enjoys very good reputation in the area of personal injury lawsuits because of their success rate. They have won thirty lawsuits whose settlement values are over 1 million each. They have won several millions so far for their clients and they continue to grow stronger.

Â

One of the trends in the area of personal injury claims settlement lawsuits is that the law firms tend to hand over the case to a paralegal firm. This does not happen with the McEwen Law Firm. They personally handle every lawsuit they accept. The victims work directly with one of the truck accident lawyers who is assigned to deal with the case. This firm is noted for its highly personal approach and complete dedication that puts the best interests of their clients first before everything else.

Â

In taking up truck injury lawsuits without getting a dime from their clients, it is the law firm that is at great risk because they will have to use their own resources for the preparation and the presentation of the case. Therefore, they would be under greater stress to win the case. Without the help of a truck accident lawyer from McEwen Law Firm, the victims will still be able to get their claims but the settlement amount will be nowhere comparable with those millions of dollars they can win for their clients.

Â
