Melbourne, Victoria, Australia 03 January 2013 Skin whitening expert and blemish solution provider, Topical Niacinamide is finally announcing the official launch of its website <http://topicalniacinamide.net/>.

Online PR News 03-January-2013 Melbourne, Victoria, Australia 03 January 2013 Skin whitening expert and blemish solution provider, Topical Niacinamide is finally announcing the official launch of its website <http://topicalniacinamide.net/>. Facilitated by beauty guru Martina Gerste, the new website is not only an information rich source for whitening and skin care tips but it also introduces a revolutionary product that is effective and with multipurpose benefits.

Â

Different forms of advertisements (e.g. television commercials, print ads, celebrity endorsements) and numerous beauty treatments and products centered on skin whitening are a testimony on skin lightening craze that is prevalent in different cultures. The concept that lighter skin is more beautiful is still existing amongst some thus there is an increase on the demand of producing skin whitening products.

Aside from lighter skin, blemish free or flawless skin is often the goal of men and women. A blemish free skin is deemed as healthier and more attractive.

Erasing signs of ageing such as fine lines or preserving the youthful glow is one of the beauty dilemmas that is stressed and addressed by various treatments such as surgery, botox, facial creams and more.

a

Topical Niacinamide is presenting a wonder product that can lighten your skin effectively and safely and at the same time it is the perfect solution for a younger and blemish-free skin.

Acnessential topical niacinamide is guaranteed to whiten the skin, get rid of pimples, acne scars, and hyperpigmentation for a blemish free skin and moisturizes and removes wrinkles and fine lines for younger looking skin.

The numerous benefits with absolutely no side effects is thanks to its active main ingredient which is 4 % niacinamide. Proven by many studies, the use of 4% topical niacinamide cream is a great alternative to skin whitening without any adverse effects.

Niacinamide cream also has the ability to reduce the inflammation caused by acne and pimples. At the same time, through regular use scars caused by acne are eliminated.

Wrinkles, fine lines and dry skin are also a thing of the past through Acnessential, since niacinamide is a form of Vitamin B, it can moisturize and rejuvenate the skin bringing back the naturally smooth and vibrant skin.

Â

The newly launched website is easy to use, information filled that discusses the benefits of Acnessential topical niacinamide cream that is not

limited to its guaranteed whitening prowess.
