

[Prius Named Consumer Reports Best Value. Available at Route 44 Toyota](#)

In a test among 2013 model years, Consumer Reports named the Prius the Best Value Overall Vehicle and Best Value Small Hatchback. The vehicle is available at Route 44 Toyota in Boston, MA.

Online PR News â€œ 03-January-2013â€œ At the end of the year, it is time for Consumer Reports magazine to look at a wide selection of vehicles and make its determination of the Best Value when it comes to vehicles. The magazine looks at a broad variety of criteria, emphasizing the vehicles estimated ownership costs, as well as its perceived reliability and performance in a series of tests run on each vehicle.

Â

At the end of the testing, the 2013 Toyota Prius came out on top, being named the Best Value for Small Hatchback Vehicles. In addition to this honor, the Prius was also named the Overall Best Value Vehicle among all 2013 model year vehicles tested. The Prius was shown to offer the best balance of performance and dependability, without being too costly.

Â

The Prius scored well in all areas of the testing process. The 2013 model costs only 49 cents per mile to own. Many vehicles cost more than double that to operate. The vehicle scored a respectable 80 out of 100 on the performance score and consistently outranked other vehicles in dependability testing.

Â

The 2013 Prius comes with a wide variety of features standard including a hybrid engine capable of achieving an EPA estimated 51 MPG city and 48 MPG highway. The vehicle also has ample space for driver and passengers, as well as plenty of cargo space to spare. The features also provide a smooth and secure ride that proves inexpensive as well.

Â

There only a handful of Prius models left, with only four of the Four Trim left in stock at Route 44 Toyota. There are financing options available and a helpful sales team determined to help customers find the vehicle of their choice in a variety of trims and colors.

Â
