

[Robbie Roberson Ford Celebrates as Ford Shelby Raptor 4x4 Unveiled at New York Auto Show](#)

Ford and Shelby united to create the astounding 575-horsepower Shelby Raptor 4x4 pickup truck. Robbie Roberson Ford is excited to see this truck.

Online PR News â€œ 09-April-2013â€œ Ford and Shelby have teamed up to produce the ultimate off-road pickup truckthe Shelby Raptor 4x4 pickup truck. It was unveiled at the recent New York Auto Show. It is actually a modified 2013 Ford SVT Raptor 4x4 SuperCrew pickup. Robbie Roberson Ford of Waycross, GA is excited by this joint effort. The Shelby Raptor has an incredibly powerful engine and added graphics package.

Â

To get the Shelby Raptor, customers will need to purchase a 2013 Ford SVT Raptor 4x4 and then have Shelby make the modifications. Production will be limited to 100 models per year.

Â

Once modified, the Shelby Raptor will be equipped with a 6.2-liter V-8 (standard on the Ford Raptor) with an added 2.9-liter supercharger. In addition, there will be a Shelby Stinger exhauster, a high-capacity cooling system, and a 6-speed automatic transmission. All combined, the Shelby Raptor will then produce 575 horsepower.

Â

The special added graphics include the Shelby name across the side of the truck in bold lettering.

Â

As a native Texan, Carroll Shelby loved powerful trucks, said John Luft, president of Las Vegas-based Shelby American. Carroll connected his love for trucks with his passion for performance on several projects, with the first one 30 years ago. The latest Shelby truck was created to conquer any terrain with serious velocity.
