

[DALTEX Fence Offers Residential And Commercial Fence Services](#)

Daltex Fence located in Dallas, Forth Worth and Grand Prairie offers residential and commercial fencing services

Online PR News â€“ 27-August-2013â€“ DALTEX Fence is a Dallas fence company that has been in the construction business for 45 years now. Having almost half a century of experience in the business, the company has made a mark for itself as a reliable and quality service offering commercial fence services. Besides fencing for commercial and residential buildings, they also install gates, openers, handrails, balconies, retaining walls and provide such services for farms and ranches.

Â

Daltex Fence is committed to creating new benchmarks for industry standards in quality and workmanship. The company is especially known for its residential fence services which include custom wood and wrought iron fence construction, automatic driveway gates, retaining walls, handrail and balcony construction, as well as refinishing and restoration. Their offices are located in Dallas, Forth Worth and Grand Prairie.

Â

One of the incentives for opting for this company would be their policy which ensures that they stand by their work and thus protects customers. Their 5 year workmanship guarantee on all the Dallas-Fort Worth wood fences protect customers and their investment. The warranty is fully transferable in case the customer decides to sell the home.

Â

The team of professionals working with the company sees to it that the finer details also reflect their companys motto of providing work of the highest quality. For example, they see to it that only stainless steel nails are used to build our wood fences since cheaper galvanized nails will eventually corrode, leaving dark, unattractive streaks and stains on the wood. They also offer to give prospective customers a free estimate for affordable, top quality fencing, automatic gates and openers/operators, among others.

Â

With a difficult, complicated project, DalTex treated it like it was their number one priority. The final result was better than I ever could have imagined. The fence looks amazing, states Jerry, Arlington Texas.
