So, we definitely hope to feature him in more songs and co-write with him again as well. He's one of the best artists and songwriters we've ever had the privilege of working with. Not only that, he's an all-around great person to know! We would also like to thank all of the people who worked side by side with Nathan on the production side of things, including Shay Watson who helped produce it. You all did a great job!"
