Online PR News "24-January-2014" Legacy Magazines are set to publish a definitive guide via a comprehensive series of magazines depicting the influences made by the British Royal Family.

Â

Great Britain is proud of its Royal Families who have built up The British Empire and have made the country what it is today; a country full of amazing history, great architecture, beautiful countryside, parks; and home to the worlds most famous Royal Family.

Â

The population of Great Britain is proud of their heritage, their country and their homes; this can all be somewhat credited to the actions of our Royal Family said the editor in chief of Royal Britain Magazine, John Wreaves.

Â

Royal Britain is a definitive historical guide primarily focussing on the history surrounding the Royal Palaces: Who lived there, the estates, houses, towns and cities where the battles were fought and who won. Each issue will build up into a definitive encyclopaedic guide defining the influences the Royal Family has had throughout the ages in Britain right through to modern times and the current Royal Institution.

Â

Royal Britain does not only look back to the past but is set to be a collectable item for the future. With stunning pictures and factual packed articles, our new publication depicts a proud and concise historical chronicle of our Royal Family concluded the editor in chief from Legacy Magazines, John Wreaves.
