

[MAS Holding Optimizes SAP Controls with Cloud Enabled AuditBOT](#)

MAS Holdings a leading Apparel Manufacturer, is using the companys Emergency Help Desk modules to control the elevated access to SAP Systems

Online PR News "08-September-2015" Cloud Enabled AuditBOT a provider of Governance, Risk and Compliance (GRC) compliance automation solutions for SAP environments, has announced that the MAS Holdings a leading Apparel Manufacturer, is using the companys Emergency Help Desk modules to control the elevated access to SAP Systems.

Â

MAS Holdings is always looking for being Compliant and securing the SAP Systems. Having a Solution for securing the elevated access gives the company controls and keeps the External auditors satisfied"

Â

MAS Holdings Company based in Sri Lanka which focuses on fashion and lifestyle. It is one of Asias largest manufacturers of intimate apparel, sportswear, and performance wear, swimwear and provide specialized IT solutions to the apparel and footwear industry worldwide. With more than 45000 employees, and revenue in Excess of 1 Billion Dollars. December 2013, the company implemented AuditBOT Emergency Help desk solution module to streamline and manage the approval of elevated access to SAP System. Giving support users access to production system is critical for business but automatically monitoring the access gives confidence to the Internal Auditors.

Â

I was impressed with the speed of implementation and hands on training provided by the AuditBOT Team,

I was impressed with the speed of implementation and hands on training provided by the AuditBOT Team, says Ransith Fernando Head of Business Applications, MAS Holdings. With a SAP Basis team always stretched thin and managing multiple projects, we needed a solution that could be deployed and used my users quickly. Emergency Help Desk has provided elevated access to the SAP Systems with approval and tracking capability of the users who perform this function.

Â

Having multiple production systems introduces complexities in the SAP System administration. Having elevation access under control can be a big relief to the infrastructure team says Selva Kumar, Partner and Founder of AuditBOT Inc. MAS Holding Internal auditors now will have good control on the elevated access and efficiently monitor the access.

About Cloud Enabled AuditBOT

Â
