

[Stainless Steel Mesh Suppliers Provide 15% Discount Offer on DIY Stainless Wire Balustrade Kit](#)

AAA Metal Suppliers, the wholly Australian owned stainless steel mesh suppliers are offering a 15% discount on their DIY Stainless Wire Balustrade Kit.

Online PR News â€œ 11-September-2015â€œ AAA Metal Suppliers are now offering a 15% discount on their DIY Stainless Wire Balustrade Kit. This was a much awaited offer that all of the companys customers were waiting for and now that it is finally here, the stainless steel mesh suppliers are experiencing a considerable boost in sales.

The Features of the DIY Stainless Wire Balustrade Kit

The DIY Stainless Wire Balustrade Kit is a low cost hand crimped stainless wire balustrade for DIY customers. It is quick to install and can be used with timber or metal anchor posts. All kits are constructed using premium grade stainless steel, whereas each unit consists of:

- 1 x S316 M5 turnbuckle with jaws at each end
- 2 x S316 thimbles for 3.2mm diameter wire rope
- 2 x Nickel plated copper ferrules
- 2 x S316 saddles
- 4 x S316 wood screws or pop rivets if attaching the saddles to metal posts

The Spokespersons Press Conference

Speaking of the companys Flexmesh, the spokesperson of AAA Metal Suppliers stated during a recently press conference, Our Stainless Steel FlexMesh provides the ideal stainless trellis for vertical garden systems or green walls that form an integral part of an architectural design. Vertical gardens made from flexible stainless mesh offer shading and reduce the heat island effect of urban buildings.

He further added, Simply put, Flexible Stainless Steel Mesh creates a living green wall system that is easy to install on walls or fences using traditional stainless steel tubes or stainless cables.

Therefore, all customers who are looking for the companys DIY Stainless Wire Balustrade Kit are definitely recommended to go for the 15% Discount as the offer may expire soon.

About the Company
