

[2016 Red Hat Innovation Awards Nominations Now Open](#)

Awards program celebrates 10th year of recognizing and honoring the most innovative uses of Red Hat technologies by customers and partners

Online PR News â€“ 08-October-2015â€“ Red Hat, Inc. (NYSE: RHT), the world's leading provider of open source solutions, today announced that nominations are open for the 2016 Red Hat Innovation Awards. 2016 will mark the 10th anniversary of the awards, which recognize the innovative ways that individuals, companies and partners worldwide are implementing Red Hat's technologies.

Â

Organizations from around the world use Red Hat technologies to build IT infrastructures that can drive business innovation. The 2016 Red Hat Innovation Awards will celebrate these efforts by recognizing outstanding work and next-generation business application deployments happening with open source solutions and, specifically, Red Hat technology.

Â

Category winners will be selected based on the uniqueness, complexity, and magnitude of their Red Hat implementations. The categories include:

Â

Infrastructure: Recognizing the notable flexibility, scalability, cost effectiveness, performance, and security within an infrastructure.

Modernize: Recognizing an outstanding transition from aging infrastructure and restrictive vendors towards open source, standardized solutions.

Transform: Recognizing the best use of Red Hat solutions to transform an IT department from a call center to a business partner that can provide self-service and useful automation.

Cloud: Recognizing the most successfully illustrated cloud deployment using Red Hats cloud technology portfolio.

Application Development: Recognizing the most outstanding employment of agile methodologies and superior overall performance of creating, maintaining, and deploying successful business applications, whether they be traditional, mobile or cloud, using Red Hat solutions.

Accelerate, Integrate, Automate: Recognizing the best overall acceleration, integration, and automation of IT workloads using Red Hat products.

Â

Each submission will be evaluated by a panel in the field of business and open source technology, including: Lee Congdon, CIO, Red Hat; Ashesh Badani, vice president and general manager, OpenShift, Red Hat; Carla Arend, program director, European Software, IDC; Sean Michael Kerner, senior editor, eWEEK; and Henry Peyret, principal analyst, Forrester Research, Inc.

Â

Submissions will be accepted through the Red Hat Innovation Awards website until Dec. 11, 2015. A winner

will be recognized in each of the six categories. From these winners, the Red Hat Innovator of the Year will be selected by the community through online voting. The 2016 Red Hat Innovation Award winners and the 2016 Red Hat Innovator of the Year award recipient will be recognized during Red Hat Summit 2016, June 28-July 1, 2016, in San Francisco.

Supporting Quotes

Marco Bill-Peter, vice president, Customer Experience and Engagement, Red Hat

For the past decade, the Red Hat Innovation Awards have recognized some truly creative and intriguing uses of Red Hat technologies, and we expect that the 2016 awards will be no different. Our customers and partners are using open source solutions to solve complex business challenges in increasingly unique and innovative ways. These awards recognize those efforts.

Â

About Red Hat, Inc.

Red Hat is the world's leading provider of open source software solutions, using a community-powered approach to reliable and high-performing cloud, Linux, middleware, storage and virtualization technologies. Forward-Looking Statements

Certain statements contained in this press release may constitute "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. Forward-looking statements provide current expectations of future events based on certain assumptions and include any statement that does not directly relate to any historical or current fact. Actual results may differ materially from those indicated by such forward-looking statements as a result of various important factors, including: risks related to the ability of the Company to compete effectively; the ability to deliver and stimulate demand for new products and technological innovations on a timely basis; delays or reductions in information technology spending; the effects of industry consolidation; the integration of acquisitions and the ability to market successfully acquired technologies and products; uncertainty and adverse results in litigation and related settlements; the inability to adequately protect Company intellectual property and the potential for infringement or breach of license claims of or relating to third party intellectual property; risks related to data and information security vulnerabilities; ineffective management of, and control over, the Company's growth and international operations; fluctuations in exchange rates; and changes in and a dependence on key personnel, as well as other factors contained in our most recent Quarterly Report on Form 10-Q (copies of which may be accessed through the Securities and Exchange Commission's website at <http://www.sec.gov>), including those found therein under the captions "Risk Factors" and "Management's Discussion and Analysis of Financial Condition and Results of Operations". In addition to these factors, actual future performance, outcomes, and results may differ materially because of more general factors including (without limitation) general industry and market conditions and growth rates, economic and political conditions, governmental and public policy changes and the impact of natural disasters such as earthquakes and floods. The forward-looking statements included in this press release represent the Company's views as of the date of this press release and these views could change. However, while the Company may elect to update these forward-looking statements at some point in the future, the Company specifically disclaims any obligation to do so. These forward-looking statements should not be relied upon as representing the Company's views as of any date subsequent to the date of this press release.
