Online PR News â€œ 09-March-2016 â€œ USA - Faucets In-Home, a reputable online dealer and retailer of custom faucets for bathrooms, kitchens, shower and other places, recently announced huge discounts on select products. The owners claimed that discounts now being offered are the lowest in the history of the ecommerce store selling and specializing only in faucets. The online store now sells both bathroom sink faucets and shower faucets at discounted prices, though the owners confirmed that the discounts are also available on kitchen faucets.

Â

We thought about slashing down the prices of the bathroom sink faucets and other types of faucets at the beginning of the year, but little did we know that we would end up offering discounts like never before. Â

Faucets In-Home owners let their users to run advanced search on the web store to quickly find the faucets of their choice. Users can now narrow down their options based on features, hose or no hose, suggested room fit, spool material and faucet handle material, faucet body material, faucet style, faucet finish, number of handles, installation type, colour and so on. The owners said that prospective buyers can also send them emails if they need assistance for choosing the best shower faucets and other types of faucets displayed on the store.

Â

We have created this store with the sole purpose of making designer faucets more popular among today's homeowners. It's more of a gallery than a web store at the very first glance. People can just flip through the different faucet styles to choose the best faucets for their households. We believe everyone can have something for his home or kitchen or bathroom here on our store, said a co-owner of the e-retail store.
