[Famatech releases free Advanced IP Scanner 2.4](#)

Famatech, recognized for its Radmin remote control software, has released a new version of its popular free network scanning tool, Advanced IP Scanner.

*Online PR News â€" 07-November-2016â€" 18 October, 2016 - Famatech, the developer of a popular remote control software, has announced the launch of the new version of the free network scanning tool, Advanced IP Scanner.

Â

Advanced IP Scanner 2.4.3021 is the latest version of free network scanner for Windows, and is the result of more than a year of work. With Advanced IP Scanner you can analyse your LAN in seconds, find all network devices, get easy access to network shares and FTP servers, control computers remotely (via RDP and Radmin), and you can even remotely switch computers off. Not requiring installation this software can be freely used anywhere for multiple networking tasks. The latest release includes new most user requested features:
 Possibility to search the network for shared printers;
 Possibility to set up custom devices name;
 "Clear scan history button" added - an option to clear history of computers that were switched off.
 Famatech has continually improved the speed of network scanning in Advanced IP Scanner, and this release is no exception. In addition, 2.4.3021 includes bug fixes and interface improvements.
 To download a free version of Advanced IP Scanner 2.4.3021 and find out more about it, please visit: www.advanced-ip-scanner.com.
