CMPRO Received The Preferred Vendor Rating from the Configuration Management Process Improvement Center

Online PR News â€“ 10-November-2010â€“ Panama City, FL - CMPRO is now one of five configuration management tools listed as a preferred vendor by the Configuration Management Process Improvement Center (CMPIC). This rating is another example of how dedicated Professional Systems Associates is to supporting the configuration management community.

Â

CMPRO received this rating on October 29, 2010 after Rob Stone, a Senior Systems Analyst at PSA, earned the CMPIC Principles and Implementation Certification. This certification is geared towards all CM Professionals and others responsible for CM activities within any type of organization or functional area. Receiving this certification was one of the four requirements to become a CMPIC Preferred Vendor.

Â

The additional requirements for becoming a CMPIC Preferred Vendor include: (a) understanding CM requirements and guidelines of various industry approved CM standards; (b) having the capability to enable efficient identification, change management and status accounting in the environment in which the tool was designed for; and (c) being active in the CM Professional community. For more information on CMPIC Preferred Vendors visit the CMPIC Preferred Vendors page on the CMPIC website.

Â

About Professional Systems Associates

Professional Systems Associates (PSA) builds customized product lifecycle management software for the aerospace and defense industries. The experts at PSA work with organizations to understand their unique approach to business, the people they have, and the processes they use. This partnership approach to implementing and supporting CMPRO allows for successful product lifecycle management implementation. For more information about the industry standards CMPRO meets go to www.PSASYS.com.

Â

About CMPIC

CMPIC is the Configuration Management Process Improvement Center. CMPIC was founded in 2008 and continues to lead the way in high quality, cost-effective and up-to-date configuration management training, certification and consulting. CMPIC staff are recognized worldwide as experts in CM process and implementation. The University of Houston sponsors CMPIC courses. For more information on CMPIC Preferred Vendors visit www.CMPIC.com.
