

[Upgraded Stellar Word Recovery Utility Now Also Compatible with Windows 7](#)

Stellar is proud to announce its Windows 7 compatible software

Online PR News " 11-November-2010" Gurgaon, Haryana, Stellar Information Systems Ltd., the most trusted name in the field of data recovery products and services, has released a new version of its herculean MS Word repair software. The recent upgrade, Stellar Phoenix Word Recovery 4.0, has advanced mechanisms to scan and repair the corrupt MS Word documents without overwriting the original Word documents.

Â

Compatible with Windows 7 and supporting MS Word 2010, this new upgrade of Stellar Phoenix Word Recovery series employs intensive file scanning and repairing methods to recover data after any type of Word corruption situation. Also, the use of these highly sophisticated scanning algorithms ensures that the repaired and recovered data is saved in a new Word document, which is saved at a user-defined location.

Â

On the launch of this Word recovery software upgrade, Sunil Chandna, CEO, Stellar Information Systems Ltd., commented, This upgrade for Stellar Phoenix Word Recovery has been done to include our target audience that is using Windows 7 and MS Word 2010. Also, we have worked on the repair mechanism of its earlier version to deliver a more robust and reliable Word recovery product, he further added.

Â

Key Features of Stellar Phoenix Word Recovery 4.0

This Stellar Word repair software from Stellar boasts of the following remarkable features:

Recovers all the Word components without inflicting any damage

Compatible with Windows 7, Vista, Server 2003, XP, and 2000, and NT4(SP6)

Supports MS Word 2010, 2007, 2003, 2002, and 2000

Displays the preview of the repairable Word components before the actual recovery

Â
