

[Securedoptions Makes Its Registration Process Easy](#)

Securedoptions has made it easy for new users to register to the binary options platform website.

Online PR News â€œ 08-December-2016 â€œ Securedoptions has made it easy for new users to register to the binary options platform website. To begin trading users have to click on the Open Trading Account tab and fill in some mandatory details. The entire registration process can be completed with just a few steps. After filling in the mandatory details, we send a welcome mail with a verification link. That is all the verification process is complete, says a spokesperson for Securedoptions. Registration is free for all users. They do not have to deposit money for registration, or give their credit/debit card details. As for those facing problems while registering, the Securedoptions customer support team is online 24x7. Users can ping us through live chat, or send an email for enquiry, adds the spokesperson. The customer service team also answers questions related to tax and other liabilities. While changes have been made to make the registration process easy, the Securedoptions team has strengthened their verification process. All users have to fill in the mandatory details to prevent money laundering activities. Users that do not confirm to their strict standards will be barred from trading. Similarly, the binary options trading platform has tightened their security measures to prevent theft. All transactions are made through the internationally accepted SSL Secure Sockets Layer to encrypt payments, he adds. About Securedoptions: Securedoptions is a web based binary options trading platform for users from across the world. They offer a wide variety of products to trade, including forex, stocks, and commodities. The team includes professional forex brokers, risk management and derivatives experts, and payment processors. To know more, visit, <https://www.securedoptions.com>
