

[MCP Inc. announced New Version of M4V Converter Plus for Mac](#)

M4V Converter Plus for Mac has been released its version 4.3.2 on June 22, 2017. When the iTunes version is V12.6.1.25, the user is prompted to upgrade.

Online PR News â€“ 22-June-2017â€” The new version 4.3.2 can work on iTunes 12.6.1.27 perfectly. However, please note that the program doesnt support iTunes v12.6.1.25 only. So if you are still running iTunes 12.6.1.25 or previous version, it will pop up the window to prompt users to upgrade its iTunes to new version. Users should download and install the latest iTunes to make sure the program is working properly. Then try M4V Converter Plus for Mac again.

Â
